International Association of Lighting
Designers, USA

Profile

Vasiliki graduated from Glasgow School of Art in 2004 and she is a practicing architect and a member of TEE in Greece since 2005. Lighting design started as an area of interest and soon gave her a new professional direction. She completed the MSc Light and Lighting course at the Bartlett, UCL in 2006 and soon after joined Arup Lighting.

In July 2013, Vasiliki moved from a senior lighting designer role at Arup to establish her own independent consultancy, Idea Design with clients including the Rothschild family office and the Rothschild Foundation.

In June 2017 she joined GIA Equation, a well-established lighting practice as an Associate Director looking after the design team and a wide range of high-profile clients & projects.

Since July 2020 Vasiliki is operating through Idea Design Ltd. and in collaboration with other design practices. Idea Design is a London based consultancy looking to expand in the Greek market and offers lighting design, architectural & project management services.

Vasiliki is an independent lighting designer with no commercial affiliations. She is a professional member of the IALD and has been active with the IALD Membership Committee & the LIRC Events Committee.
